

Yulia Goriunova

Senior UX Designer | Product Design & AI-Driven Experience

Dublin, Ireland | +353 83 0705869 | yulia.zuk.v@gmail.com

Portfolio: yuliazuk.github.io/index.html | LinkedIn: linkedin.com/in/yulia-zhuk-v/

Professional Summary

Senior Interaction Designer with an engineering background and 7+ years of experience architecting complex, cross-functional systems and data-heavy workflows. Expert in translating intricate requirements into intuitive, accessible user experience within B2B and Enterprise environments. Proven track record of leading design strategy. Leveraging an engineering background and **foundational knowledge in Python and Cybersecurity** to design resilient, privacy-focused interfaces for complex systems.

Core Competencies

Interaction Design: Complex Systems, Data Visualization, Wireframing, Rapid Prototyping, User Flows, Information Architecture.

Tools & AI: Figma, Sketch, Adobe CC, AI-Augmented Design (Generative AI for prototyping/content), Miro, UX Pilot, Lovable.

Strategy & Research: Usability Testing, WCAG Accessibility Audits, Design Systems, Cross-functional Collaboration, Agile/Scrum.

Technical: Python (Scripting & Data Analysis), Cybersecurity Fundamentals (Threat Modeling, Privacy by Design), HTML/CSS/React.

Experience

[Flamba AI](#) | *Freelance Senior Interaction Designer June 2025 – Present.*

Leveraging AI-augmented processes to design an innovative educational application.

- Partnered with founders to define the **product vision and interaction model** for an early-stage AI application, utilizing **Generative AI tools** to accelerate high-fidelity prototyping and concept validation.
- Designed "magical" user experiences for a younger demographic, balancing engagement with safety and simplicity.

- Established the foundational visual language and storytelling framework, ensuring alignment between user needs and technical AI capabilities.

[Health and Help \(NGO\)](#) | *Lead UX/UI Designer August 2024 – June 2025.*

Led design for a global charity operating in sensitive, resource-constrained environments.

- **Led and mentored** a team of 3 designers to overhaul the donor platform, resulting in simplified workflows for complex transaction processes.
- Architected a scalable **Design System** that improved consistency across digital touchpoints, reducing design-to-development handover time.
- Designed accessible interfaces for diverse global audiences, ensuring critical information was viewable and actionable under varying connectivity conditions.

[Blueface \(Comcast Business company\)](#) | *Senior UX/UI Designer February 2020 – May 2024*

Designed complex B2B Unified Communications (UCaaS) platforms for SMB and Enterprise markets.

- Redesigned the core 'Call Management Console,' migrating from a legacy interface to a high-density, accessible layout. Validated designs via usability testing, achieving a **20% increase in task speed** and a **60% reduction in critical errors** for high-volume users.
- Standardized the user experience across web and mobile by implementing a unified **Design System (tokens and components)**, ensuring design consistency and scalability across multiple product lines.
- Championed **Accessibility (WCAG)** standards within the engineering organization, conducting audits that led to significant improvements in product compliance and inclusivity.
- Conducted rigorous usability testing and analytics reviews to identify friction points in the user journey, iterating on designs to improve task completion rates for business users..

Decathlon (E-Commerce) | UX/UI Designer January 2015 – February 2020
(Includes freelance & contract roles)

Worked in a high-volume, data-driven retail environment focusing on conversion and personalization.

- Collaborated with cross-functional teams to launch **website personalization features**, contributing to a **2x increase in user activity and conversion rates**.
- Designed and optimized end-to-end user flows for courier aggregation and internal CRM tools, streamlining operations for store employees (B2E).
- Utilized **Google Analytics** and A/B testing methodologies to validate design hypotheses and drive data-informed product decisions.

ABBYY | UI Designer December 2017 – February 2019

- Collaborated with web developers to redesign search functionality and results pages, significantly improving information retrieval for users.
- Optimized responsive web layouts and updated the corporate design system to ensure brand alignment across global digital assets.

Education

Moscow State University of Instrument Engineering and Computer Sciences
Engineer's Degree (An Honours Bachelor Degree Equivalent) | 2007 – 2012

- Focus: Information Technology, Design, and Production. Provided a strong technical foundation for understanding complex engineering constraints in design.

Artem Gorbunov Design Bureau Product Design Certification | 2015 – 2016

CERTIFICATIONS

- **IT Specialist - Cybersecurity** – Pearson, 2025
- **Scientific Computing with Python** – freeCodeCamp, 2024
- User Research / User Experience – Interaction Design Foundation (2020/2021)
- HTML, CSS, JavaScript – Bauman MSTU (2015)
